---

Since 1992, Tina Gambrell has served as Jones Walker's Manager of Library Services. Ms. Gambrell and her staff help to ensure that the firm's attorneys have access to the highest quality, up-to-date legal information resources available.

The Jones Walker libraries function as resource centers, designed to meet the firm's varied informational needs through specialized legal materials, selected non-legal works, a general reference collection, and other user services specially tailored to Jones Walker. The main library is located in the New Orleans office, and library staff are in both the New Orleans and Baton Rouge offices. Other Jones Walker offices have smaller print collections based on the practice needs of the attorneys, and attorneys in all offices have access to a vast array of electronic information resources.
